## Worker's Educational Association Campaign for the 2011 Scottish Election

Dear David

Welcome to the Learning Link Scotland Network Bulletin keeping you up to date with the latest developments in Adult Education across Scotland.

How passionate are you about adult education? The WEAs has begun its campaign for the 2011 Scottish Election.

"With mounting pressure for savings, public sector bodies in Scotland are working out where to make spending cuts. As a non statutory service, adult education is more vulnerable to cuts than other funded services, but comparatively modest funds for adult education would go a long way. The benefits to individuals, and to society, far exceed the size of public investment."

Postcards, containing the image above, as well as an area to write down a personal experience of adult education, are being sent to WEALearners to be mailed on to MSP candidates. For more information please see the [WEAScotland website](#).
